

Florida Keys and Everglades – A Creationist Perspective

May 31 - June 1, 2013

Creation Adventures by Science Partners

“The earth is full of Thy creations. So is this great and wide sea, teeming with life of every kind, both great and small.” Psalm 104:24-25

Join Bill and Merilee Clifton – creationists, authors, Florida Master Naturalists, and science educators - as we investigate the handiwork of God in the Florida Keys and Everglades. This year, by popular request, we will be driving our own vehicles instead of chartering a motorcoach. Many participants want to stay in the Keys and Everglades after our time as a group is over and have an extended family vacation. **We'll meet at 12:30 PM at Everglades Alligator Farm** where we're in for a unique, fun-filled educational experience. We'll see different species of crocodilians including the American Alligator, American Crocodile, and Spectacled Caiman. Other activities include animal shows and demonstrations as well as a hold-on-to-your-hat airboat ride through the Everglades sawgrass! Going places where no ordinary boat can go, we'll look for different species of fish, turtles, birds, plants, and alligators in their natural habitats. Then we'll head for Everglades National Park (ENP), the largest protected sub-tropical wilderness in the continental U.S. Evidence here of the awesome work of the Creator is mind-boggling! ENP consists of more than one million acres of rivers of sawgrass, pineland communities, hardwood hammocks, and seldom-seen endangered wildlife. At the Visitor Center we'll see their educational displays, movie, and gift shop / bookstore. We'll also hike Anhinga Trail looking for native plants and animals. Then we're off to "Robert is Here," a world-famous farmer's market (and more) known for exotic, tropical milkshakes.

On Saturday morning, we'll leave early for Key Largo and John Pennekamp Coral Reef State Park, the first undersea park in the U.S. As we snorkel on this Atlantic Ocean coral reef, we will gain great insight into the intricate workings of the Creator, Who specifically designed the many life forms to live symbiotically on this "city" beneath the sea. We are fortunate in Florida to be able to study these magnificent living monuments that give overwhelming evidence of the Creator. No problem if you've never snorkeled before! After lunch, we'll take a mangrove hike and then explore the Visitor Center with its fascinating aquaria and museum. **Our day as a group will end around 2:00 PM.** Cost includes lodging, three meals (Friday night dinner, Saturday breakfast and Saturday lunch), all entrance / admission / program fees, boat fares, snorkel equipment rental, gratuities for airboat and snorkel boat crews, and educational materials.

Space is limited to the first 47 registrants (boat capacity)! Minimum is 25. **Participants must be good swimmers.** A responsible adult must accompany and swim with all children. Make your check payable to **Science Partners** and mail with the registration form below to Science Partners, 343 Allison Avenue, Longwood, FL 32750. You may divide your total into three equal payments: the first payment is due by **February 1**; the second by **March 15**, and the balance by **April 26**. **Deadline for minimum number is March 15, 2013. Late registrations will be accepted, space permitting.**

Cancellation Policy: Science Partners must make numerous deposits and payments in preparation for this trip. Therefore, if you cancel on or before February 1, \$25 per person is non-refundable; from February 2 – March 15, \$50 per person is non-refundable; from March 16 – April 26, \$100 per person is non-refundable. **Please note:** In the event of a serious, unexpected family emergency, Science Partners will seriously consider refunding even the "non-refundable" amounts when possible. In the event that Science Partners has to cancel the trip because the minimum number of participants was not met or for some other unforeseen circumstance, **ALL** money collected will be refunded.

Registration Form: FLORIDA KEYS AND EVERGLADES, May 31 – June 1, 2013

Last Name:		Address:	
City:		Zip:	Home Phone: ()
