Arming a Generation of Christian Kids to Combat Evolution!
By Felice Gerwitz

Evolution is true just ask anyone.

- National and Local Museums
- National Science Standards
- Only evolution can be taught in public schools
- “Real” scientists all point to evolution as fact
- Facts are taught as evidence
- Words are used such fact
- Evolution has no flaws only incomplete data
- Unanswered Questions are ignored

Understanding the Real Reason

- Secular Evolutionists
 - Are atheist or agnostic
 - Want to eradicate the belief in God
 - Fear Creationists
 - Put down anyone who doesn't agree as ignorant
 - Use fear tactics to polarize the public
 - Believe Creationists have no evidence
 - Everything they can't answer they ignore
 - Lump Intelligent Design Movement with Creation

Reasons Christians Hold to Creation

- God Created the World
- The Answer is in the Bible
- Christians need not fear science
- The Bible does not “fit” into science or vice-versa
- More and more scientific evidence points to a Divine Creator
- Biblical Creationism is here to stay!

What are we up against?

- Anyone who opposes evolution is
 - Met with heated responses
 - Personal attacks
 - Ridiculed
- Christians are despised
- Facts are fudged
 - Make false predictions work
 - Hard to argue with falsehood!

How can we arm our kids?

- Knowledge
- Reputable sources
- Facts
- Answers
- Research
- Investigation
- Fossil lack of evidence
- Learn the terminology and use it correctly

Fundamentals

- Science does not prove
- Evolutionary data when tested rarely confirms the hypothesis
- Darwin's theory of evolution is false
- Darwin predicted the fossil record would verify his theory—the fossils have not
- Biology does not fit evolutionary theory
- Life can not come from non-life
 - However this is the latest mantra from noted scientist like Richard Dawkins and Lawrence Krauss

More Fundamentals

- False predictions are fixed
- Theory of Evolution is very complicated
- “Junk” DNA has been discredited
- “Useless” organisms are useful
 - Vestigial organs in humans have purpose
 - Thymus gland
 - Appendix
 - Spleen, etc.
- Just saying the earth is millions or billions of years old doesn't mean it's true

Problems with Darwin's Theory

- Changes over time
 - Millions or Billions of years can not cause change
- Changes must be beneficial or at least neutral
 - Mutations tend to be deadly
- Dogs are still dogs
 - There are “kinds” of animals
- Sterile hybrids can not reproduce
 - A mule is a hybrid between a horse and donkey

- Fossil record is lacking in transitional fossils

False!

What do you do with this information

- Share truth with love
- Agree to disagree when needed
- Know the answers are in the Bible
- Know that God doesn't lie. If the first BOOK in the Bible isn't true than what is?
- Arm yourself with the knowledge that God has given us free will and we have a choice to make...

What will you choose?
