

“Evolution is promoted as more than mere science. Evolution is promulgated as an ideology, a secular religion – a full-fledged alternative to Christianity, with meaning and morality. Evolution is a religion.”

Michael Ruse, in the National Post (Ontario, Canada), 5/13/2000, sec B, p3. [Emphasis added]

“When it comes to the Origin of Life there are only two possibilities: creation or spontaneous generation. There is no third way. Spontaneous generation was disproved one hundred years ago, but that leads us to only one other conclusion, that of supernatural creation. We cannot accept that on philosophical grounds; therefore, we choose to believe the impossible: that life arose spontaneously by chance!”

George Wald (Harvard University biochemist and Nobel Laureate)

“The Origin of Life,” *Scientific American*, May 1954.

*"... ask the animals,
and they will teach you,
or the birds of the air,
and they will tell you;
or speak to the earth,
and it will teach you,
or let the fish of the sea
inform you.
Which of all these does not know
that the hand of the LORD
has done this?"*

Job 12:7
