## Call to YOU

### Call to European Youth

Young people, do not permit yourselves to be deceived by the lie of Darwinism. Do not blindly believe in the things taught you in the name of science.

Question the Darwinism your teachers are trying to teach you and ask them these questions:

- "Have any intermediate fossils ever been discovered?"
- "Can a protein form by chance?"
- "Is it true that millions of living fossils have been found?"

They will be unable to answer.

It is a crime against humanity to try to deceive people in the name of science. People have a right to learn the truth, and nobody can take away this right. Learn about Darwinism, but also learn that it is a deception. Learn about Marxism, but also learn the response that has been given to it. Learn about fascism, but also learn that it is a plague stemming from Darwinism. Darwinism, communism and fascism tell many lies. You must learn them all, for which reason you must read the Harun Yahya collection.

## Evolution leads to hopelessness

- This is all there is
  - No life after death
  - Live this life however you think is best
- Survival of the fittest
  - Weak should not live
  - Terminally ill should be helped to die
- Morality questions are optional

evolution leads to death...

---

---

---

---

---

---

---

---

## Moral Questions

- Who should live?
- Who should die?
- Do we trust God?
  
- When man makes decisions he becomes "like" God
  - Sin of the garden of Eden

---

---

---

---

---

---

---
