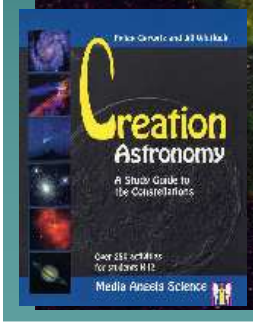
The Heavens Declare the Glory of God



The Universe

By Felice Gerwitz

Who Created the Universe?

Exodus 20:11 (NKJV)

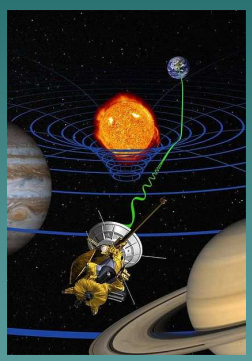
- For *in* six days the Lord made the heavens and the earth, the sea, and all that *is* in them, and rested the seventh day. Therefore the Lord blessed the Sabbath day and hallowed it.

John 1:13

- In the beginning was the Word, and the Word was with God, and the Word was God. He was with God in the beginning. Through him all things were made; without him nothing was made that has been made.

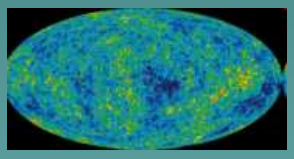
What is the Universe?

How did the Universe Begin?



There are lots of theoretical models on how life began on earth

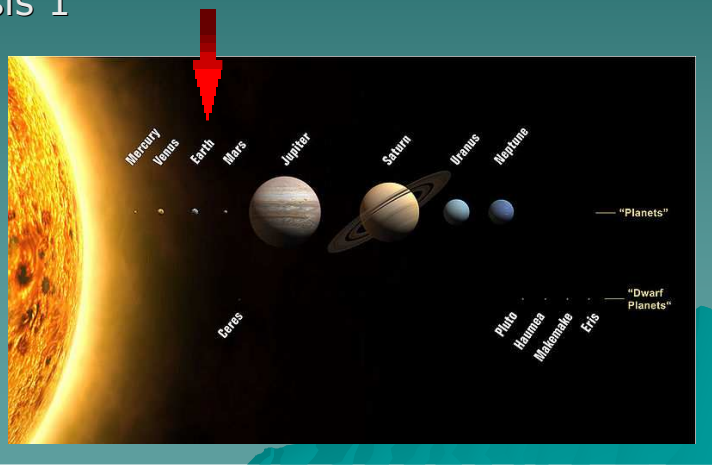
The Big Bang? Something from nothing?



Importance of Genesis

- God Created the Universe
  - Genesis 1

…in the vastness of time and space God created planet Earth and us!



How Big is the Universe?

- We can't comprehend the size
- Farther than current technology can measure
- Farther than man can travel

Jeremiah prophesized that man would never completely explore all of the universe

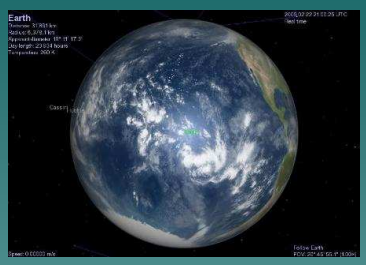
And God Created…

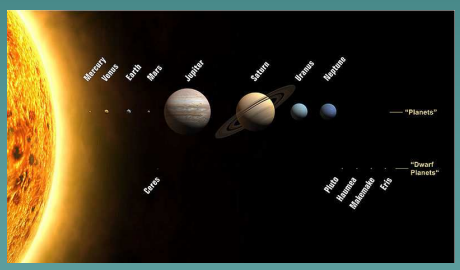
Psalm 102:25-27

In the beginning you laid the foundations of the earth, and the heavens are the work of your hands.

What Does our Universe Contain?

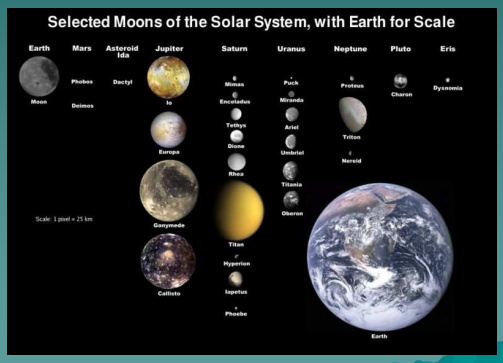
- Solar System
- Planets





What Does the Universe Contain-2

- All the moons…



Milky Way Galaxy

- Galaxy Where our Solar System is located

What Does Our Universe Contain-4

- Comets, Asteroids

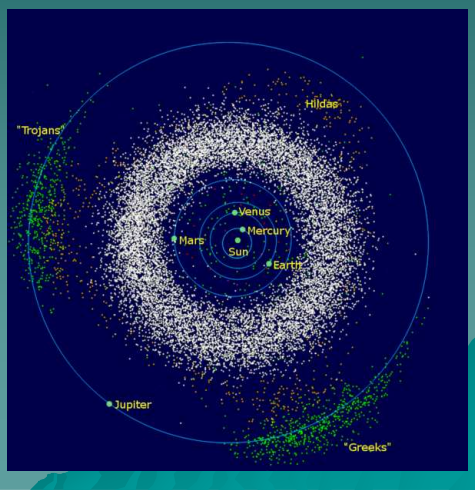
First up close picture of an asteroid

Halley Comet

Comet West (C/1975 V1) photographed in early March 1976 by Peter Stättmayer of the Munich Public Observatory.

The Hand of God Protects Us…

- Comet and Asteroid Belt in our Solar System



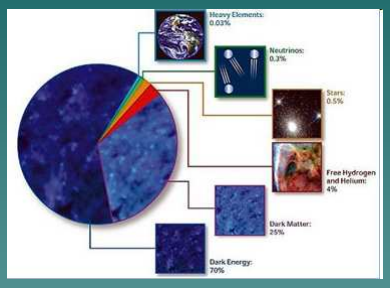
Our Universe continued…

- Stars
- Nebula
- Quasars
- Unknown…

Nebula

Pleiades…Constellation

What is Our Universe Made Of?



http://map.gsfc.nasa.gov/universe/uni_matter.html

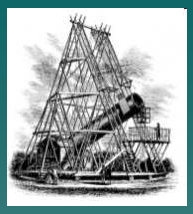
Movement of the stars and gases in space are measured by astronomers

How do the Astronomers collect information?

- Telescopes
- Unmanned Rockets
  - Satellites
- Manned Rockets
  - Space Travel

Amazing! Saturn's Rings

Fun Facts



- Largest First Telescope
  - 1795-1789 Observatory House in England by William Herschel's 40'
- The lightest element in our universe?
  - Hydrogen the most abundant element
- Youngest Nebula
  - Stingray Nebula
